

ASSIGNMENTS ARE CONTINUOUSLY GIVEN TO THE STUDENTS

Akanksha,Dehradun

SOCIAL DISTANCING

As the college has been closed due to the covid-19 global pandemic situation and students have been sent back to their home and continuously online classes are being taken through the

zoom app. Students are actively participating in the online lectures as it is important for them to get attendance and even the students need regular classes to complete their syllabus if they do not get classes they won't be able to understand the topics of their respective subjects.

If the faculty members are unable to take classes they regularly give assignments to the students. The classes are routine based i .e. 2 online classes and 2 assign-

ment classes. As the students are even free and don't have any work at their home so they are regularly given assignments so that they learn, research and come across new topics.

An assignment is a task that someone is given to do, usually as part of their job. An assignment is also a piece of academic work given to students. The course has heavy reading or writing assignments. The loss of practical classes should not occur therefore the faculty members are even sending videos and exercises to the students so as to enhance their work and learning.

Practical classes are

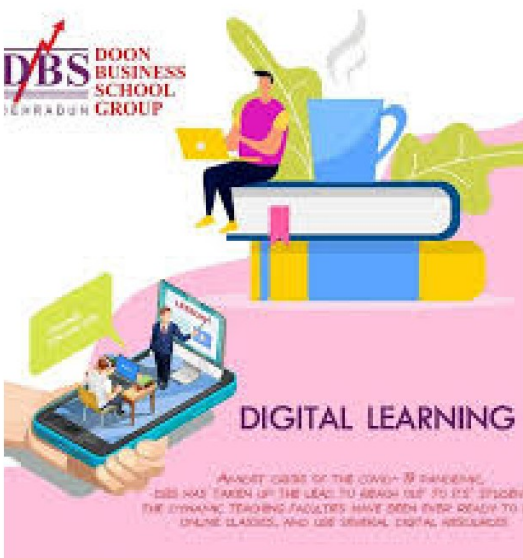

important part of the curriculum, Practical work is an important aspect of science and art education. It includes a range of activities and is also used for a range of purposes, such as: illustrating a concept or idea to help students generate arguments from evidence in the process of knowledge construction.

Regular assignments given to the students helps them to enhance their knowledge and gives them a wider learning it is an important exercise for the students. The assignment should be handwritten and scanned and sent it to the provided email id of their respective faculty

members. Practical work complements theory. Practical assignments are often carried out in groups. Group work helps to inculcate social values and values like sharing, cooperation, team spirit, compassion etc. Practical work makes students independent and increases their confidence. Assignments should be taken seriously as it is beneficial for the students only they can learn more and more things through this .

INTERNAL EXAMS TO BE TAKEN ONLINE

Akanksha, Dehradun

The internal midterm exam to be taken online through moodle. The

online exams for the mass communication students to be held on

23rd march,2020 onwards. The students will have to give online handwritten exams and then scan their answer sheets and send it through mail on respective email id given by their faculty teachers. The test was scheduled to begin at 2.00 p.m. and end by 4.15 p.m. and the students were asked to send their answer sheets by 4.30 p.m. The answer sheets should be properly scanned and made into pdf file before sending it and the students should write their name, class, Erp id, subject name and all

the essential detail properly before sending it on the mail to their respective subject teachers. The students are actively participating in the exams because they know the importance of exam though it was announced by the teachers that it would be an open book exam. The internal carry a lot of weightage marks for the student it is a way to score more marks and make your performance more better. An exam is a formal test that is taken to show our knowledge or ability in a particular subject,

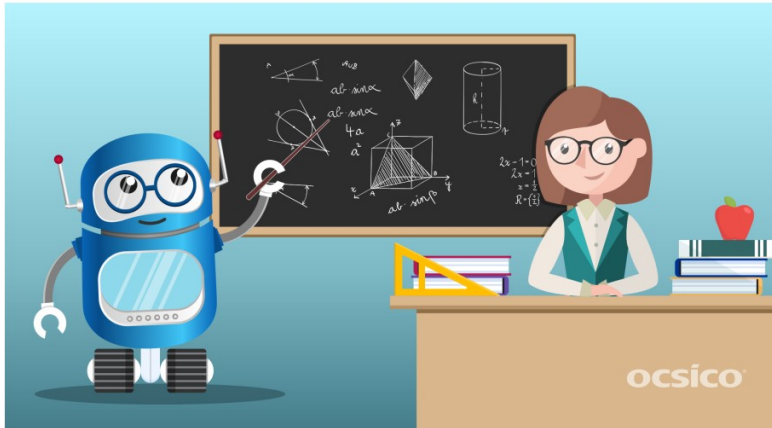

or to obtain a qualification. If you have a medical exam, a doctor looks at your body, feels it, or does simple tests in order to check how healthy you are.

BEST POSSIBLE EFFORTS TAKEN BY THE FACULTIES

Akanksha, Dehradun

The college is closed and the students are getting online classes by their faculty members. Now, as the lockdown has been imposed in the country the teachers are even asked to sit at their homes and take online classes regularly so

that the students do not have any loss of their syllabus and studies. Teachers are at their homes and they are taking the classes they need to manage 5-6 classes regularly for each semester and different courses they be- long too.

Working from home is a big task to handle personal and professional life together is a big deal for our teachers and students as well. Work-from-home jobs are very much a reality The reasons workers want to do their jobs re- motely aren't surprising:

better work-life balance (91%), increased productivity/better focus (79%), less stress (78%), and to avoid a commute (78%)

When students are motivated, then learning will easily take place. However, motivating students to learn requires a very challenging role on the part of the teacher. Some students seem naturally enthusiastic about learning, but many need or expect their instructors or teachers to inspire, challenge or stimulate them.

All the faculty staff are continuously updating the students with the online regular classes ,activities and assignments. They are taking

best possible effort's to complete the syllabus and they also make this sure that students are not left with any doubts.

COLLEGES ARE CLOSED UNTIL THE LOCKDOWN IS OVER

Akanksha, Dehradun

Lockdown is imposed all over the country, due to which the colleges will not open till further

notice given by the government of India. Doon Business School, was going to inform the stu-

21 days i.e. from 25th March to 14th april, 2020. The college will remain

students about its reopening by 27th, March,2020. But as the cases of covid-19 has been growing continuously in the country the college will not reopen and the Prime Minister of India Mr.Narendra Modi has imposed lockdown in the country for

closed and the students are asked to attain classes online through the zoom app. Faculties shall be giving online lectures and assignments to the students the students are even asked to give internal exams online, scan their answer sheets and mail it to the given mail id by the teachers.

For many of us in self-isolation, it can feel like the coronavirus has put the world on hold as we wait for release from our temporary imprisonment. But increasing numbers of people are using the time to build their skillset, with an up-

surge in enrolments on online learning platforms Regular online classes and assignments are the way by which students can keep them engaged in this lockdown

This are the few steps which could be taken in lockdown when the country is suffering from a lot of pain. Counts is increasing day by day people are dying and suffering due to this pandemic situation. So, it is better to stay home and stay safe.

STUDENTS AT LOSS IN EDUCATION

Akanksha, Dehradun

Due to the corona virus pandemic situation in the country the students of class 10th and 12th are unable to complete their board exams. Their board exam is standstill till the next announcement of the board council and the government comes. The students are at a great loss they only have one or two exams left and they are not able to give it. Students are waiting for the announcement if the board. As many of the colleges have started taking interviews and tests for the next session in different courses. Corona has badly af-

ected the education system at the beginning it was felt that everything would be perfect but now the condition has grown worse even. The cases are going more and more everyday and the life of adults infants and elder citizens are at stake. Unfortunately, students all over the world are being affected as more and more schools and universities have been forced to close their doors. For how long? No one really knows. Almost all European countries have already decided that classrooms should remain empty for at least 3 weeks. Instead of see-

ing friends in school, students are now trying to keep up with their coursework from their own homes. In the US, the situation is nearly the same; several districts decided to close schools for a few weeks – and the list is growing. But not only local students are affected by the virus, many exchange students face the fear of not being able to travel home as flights and trains are being cancelled. Previously, we might have thought there were worse things than being stuck at home. If we look at globalisation and the technical possi-

bilities today, a few weeks without school is probably not so bad. The immediate solution of coronavirus is necessary or if like these days pass then closure of schools and colleges does not even have short term impact in India but can even cause far-reaching economic and societal consequences. Let us tell you that due to the closedown of educational institutes it is estimated to affect around 600 million learners across the world. Remember here we are talking about the school going students. The world is being tortured globally. Students

are even paying for the losses. this is a time for us to unite and rebuild our thoughts and work to support each other.

कोरोना का प्रकोप

आकांक्षा, देहरादून

मौत का मंजर तो देखिये जनाब जहाँ हम अनेक उपकरणों और हथियारों के साथ तैयार खड़े थे वहाँ एक छोटे से कीटाणु ने हाहाकार मचा दिया है। खौफ और देहसत की ये जो महामारी फैली है पुरे विश्व में वो वाकई दर्दनाक है। इसने अपने चपेट में विश्व के सबसे शक्तिशाली देशों को भी ले लिया है जो आज कोरोना के आगे घुटने टेकने को मजबूर हो चुके हैं। छुआ-छूत की ये बीमारी ने लोगों को अपने घरों में रहने को मजबूर कर दिया। भारत सरकार ने इस महामारी से लड़ने के लिये कई विकल्पों का सुझाव दिया है। जब सरकार हमारे लिये इस वैश्विक

महामारी से लड़ने को तैयार है वो हर सफल प्रयास कर रही है जसि देश की आम जनता को कोई कठनाइयों और परेशानियों का सामना ना करना पड़े। प्रधान-मंत्री के वनितीयों एवं आग्रह का उल्लंघन करते हुए हमारे देश के गुणी जन घरों से निकलने से बाज नहीं आ रहे जसिका कारण यह दशा है की हमारे देश में कोरोना का आकडा 5000 हजार के ऊपर जा चुका है। अगर कोरोना का प्रकोप इसी तरह बढ़ता रहा तो ये जल्द ही पुरे देश के लोगों को अपने चपेट में ले लेगी जसिकी बड़ी कीमत मासूमों को अपनी जान से देनी पड़ेगी। इसलए मेरा अनुरोध है लोग से वो

अपनी सूझ-बूझ का इस्तेमाल करते रहे और घर से बाहर ना निकले।
